

CONGRATULATIONS ON YOUR DECISION TO INSTALL A BIDET

This document has been prepared to help you use your new bidet.

The below has been developed to demonstrate –

- How to use your new bidet and it's features
- How to use the remote control and the features it controls

Please refer to the manufacturers paperwork for maintenance and care instructions.

INTELICLEAN 9000

Scanning the QR Code with the camera on your phone will automatically take you to a video that explains how to use your new bidet.

Step 1

- Point your camera at the square with the black & white pattern (pictured on the image to the right).

This black & white pattern is called a "QR Code". Do not push a button like you would when taking a photo. Simply hover your phone above the QR Code then continue with Step 2

Step 2

- When your phone reads the QR Code, your phone will automatically display a yellow rectangle below the QR Code.
- When you see this yellow rectangle, using your finger, click on the yellow rectangle. Your phone will automatically take you to a video on your phone.

Step 3

- Watch the video to learn and understand how to use your bidet and remote control.
